*"It's a very tempting thing to try and relive your glory days when you get a little older and you worry that people have forgotten all about you. "*

**[ David Gilmour ]**

... And it is a very tempting thing to dive deep into the music of such a monster as Pink Floyd.

So we decided to try...

2012 could be the beginning of it all. In fact, during this cold winter, the four musicians Ben, Bertrand, Patrick and Rico met and played together for the very first time. In the Summer of 2014, the things start to really begin.. During the rehearsal sessions of a common musical project, music is played, jokes are said, plans are made and suddenly one idea rises from nowhere : What about a Pink Floyd cover band ?

Interesting question. But it is above all a musical challenge.

The idea blooms in the musicians minds and E.C.H.O.E.S is officially created at the end of 2014. The project is solid and the band's goal is to stay as close as possible to the original music...

Coming Back To Life

**AUDIO / VIDEO**

## Benoît Oberson lead vocals, guitars

With a huge passion for music, Ben has been involved in a lot of bands and musical projects. Several years across Europe as lead guitarist and vocalist in a metal band, session guitarist for various pop bands, choirs and projects, a touch of blues and jazz have led him to this statement : music makes him free.

He recently discovered the world of musical illustration which brought him to new territories, where atmospheres, textures, rythms, sounds must fit with other artistic disciplines.

He is also a music teacher.

E.C.H.O.E.S is a major challenge and a dream for him because not only he admires David Gilmour's tone, musicality and talent but he was born on the same day as him. Well, a couple of years later...

## Patrick Chanez keyboards, backing vocals

Patrick was and still is part of many projects in various musical styles from the intimate duo Lilou to the Dream Theater cover band dDT.

E.C.H.O.E.S represents for him a great challenge. In fact the sounds he has to shape must match the atmosphere of the original Pink Floyd tracks.

## Eric Rey drums, percussions

Enchanted by music as he was a teenager, Rico went from musical project to musical project in which he privileged encounters and friendships.

From ballroom orchestra to performances with choirs, from swing to rock, from composition to cover bands, he always tries to find something that sounds musically and humanly true.

Can we say that he is a man of percussion ? Maybe... He is certainly a real enthusiast and passionate Pink Floyd listener, whose music led him on his first steps as a drummer, made him discover strange metrics, made him aware of the importance of space between notes and the power of some hypnotic harmonies.

E.C.H.O.E.S is for him a natural step that proves that life is an eternal renewal.

## Bertrand Chanez bass, backing vocals

From metal to jazz and through a rock version of the classical "Carmina Burana", Bertrand has explored all the facets of the bass in various projects.

Interested in progressive rock since always and marked by the album "The Wall" in his teens, the project E.C.H.O.E.S arrived as an evidence to him.
